

## Swift 911 Emergency Notification

The Carle Place Water District is pleased to report that a majority of our consumers have signed up with the Town of North Hempstead to receive emergency notifications as well as non-emergency notifications. This system allows our District to report upcoming disruptions and/or issues to your water service. If you have not registered your telephone number and/or email address you may do so at [www.northhempsteadny.gov](http://www.northhempsteadny.gov). Scroll down to the blue boxes on the home page and then scroll to the first blue box on the left – see illustration below. An informed consumer is our best customer.
